

Simple Image Link Buttons using the Paint Application

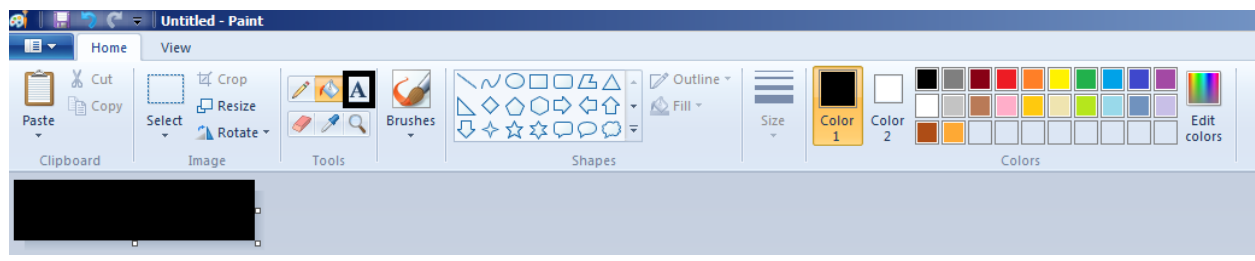

1. Open Paint and set up a template (100 px by 25 px)

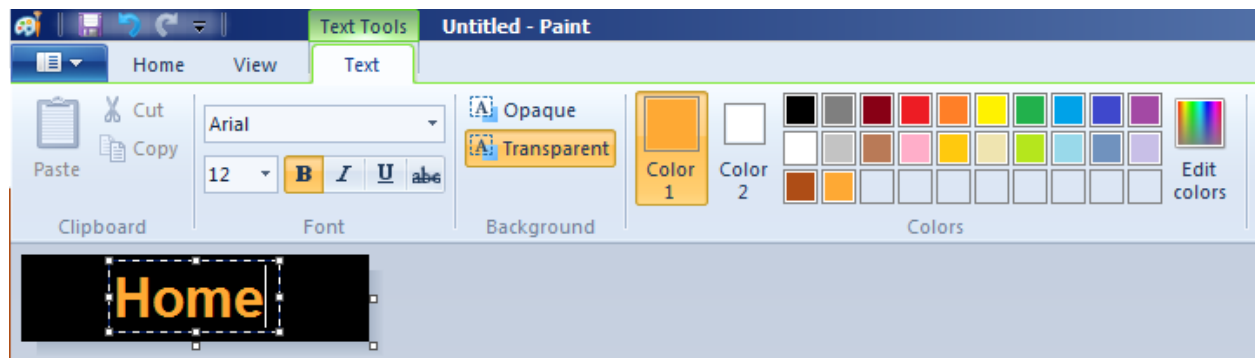

2. Fill in the background color (Black or whatever color you like...)

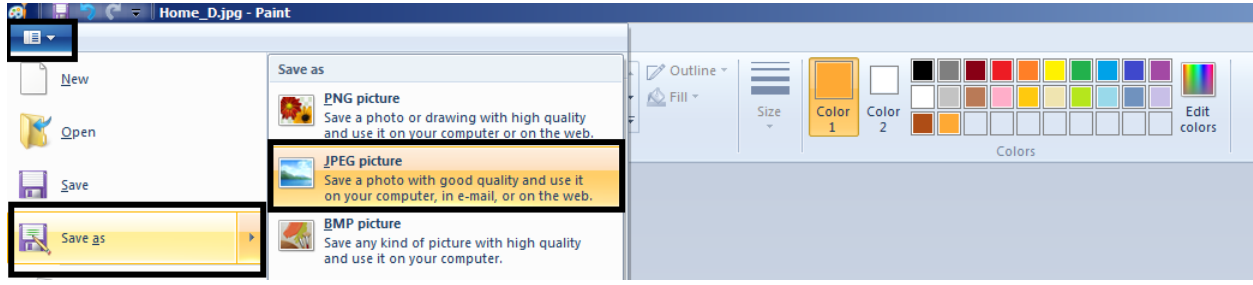

3. Select the Text tool

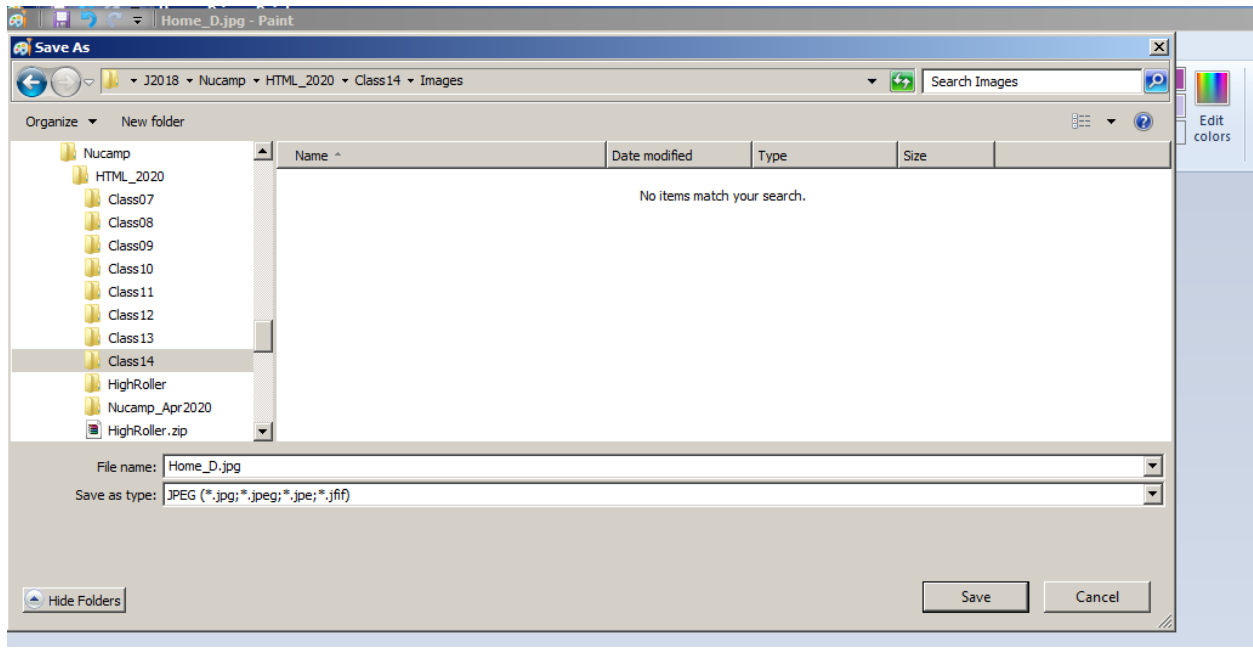

4. Next select the font color, size, etc. Then type in your menu name. Align it manually.

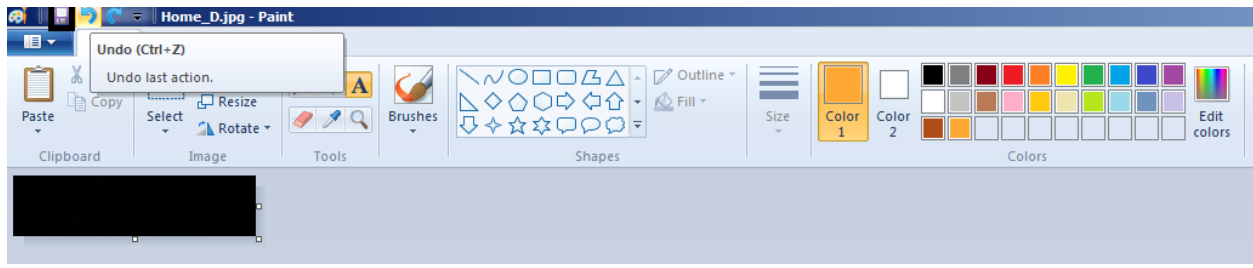

5. Select: File, Save As. Pick a format (PNG, JPG, etc).

6. Pick a folder, give the image a name, and select Save.

7. After saving... hit the Undo button once. You now have a blank template for your next button

8. Follow the same steps from step 3 to create as many buttons as needed.
